2713 Black Weatherite and Yak Combination
2743 Burnt-Tamarack Weatherite with
matching Yak Combination

custom crafting

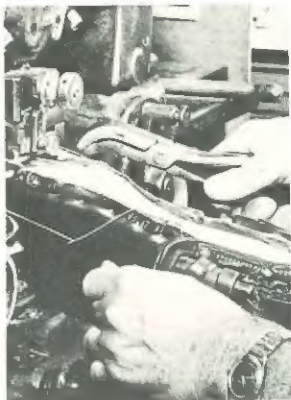

1. Experienced craftsmen carefully mold the upper over the wood last to provide perfect comfort.

2. The leather is pulled tight and smooth over the last to provide a firm, yet gentle support.

3. Meticulous form shaping provides matchless walking ease — shoes maintain their new-look for a longer period of time.

4. The entire shoe is stitched all 'round to lock uppers, counters, insoles, and soles into one unit. So every shoe flexes, bends, and rolls with each step.

5. An extra measure of finely-ground, absorbent cork between inner and outer soles provides a comfortable thermal insulant against heat or cold.

6. The outer sole is exactly stitched all 'round. This ties the complete shoe into a strong nailess single unit which contributes to unsurpassed flexibility.
